

ILLINOIS STATE UNIVERSITY
DEPARTMENT OF CHEMISTRY
Special Topics and Graduate Courses
2018-2020

Please note that the following is a tentative schedule and is subject to change. As you are likely aware, changes in staffing or failure to meet minimum enrollment requirements may result in the cancellation of a class or the offering of a new class not shown here.

Fall 2018

380a11 Structure Determination (Hitchcock)
412a15 Mass Spectrometry (Mulligan)
428 Heterocycles (Lash)
444 Lipids (Jones)
461 Heterogeneous Catalysis (Green)

Spring 2019

PHY318 Methods of Computational Science
(Grobe)
422 Reaction Mechanisms (Nagorski)
440a02 Nucleic Acids (Weitzel)
454a03 Organometallics (Szczepura)

Summer 2019

4xx TBD

Fall 2019

380a11 Structure Determination (Hitchcock)
412a07 Bioanalytical Chemistry (Driskell)
426 Organic Synthesis (Mitchell)
440a11 Bioinorganic Chemistry (Webb)
460 Quantum Chemistry (Standard)

Spring 2020

PHY318 Methods of Computational Science
(Grobe)
4xx Analytical course (TBD)
4xx Biochemistry course (TBD)
4xx Inorganic course (TBD)
428 Heterocycles (Lash)-- proposed

Summer 2020

4xx TBD
